

Introducing PRISM

Confidently manage **Privacy Risk** and **Information Security Management** across your business.

PRISM is a new data governance tool to help your business, no matter where you are in your compliance journey. It is a practical and cost-effective solution with which to manage multiple compliance requirements via one secure online portal.

The modular system can be tailored to large businesses or SME's, including sole traders and micro-organisations. It's designed to help Business Owners, Managers, Data Protection and Information Security Representatives to establish a Data Governance Framework.

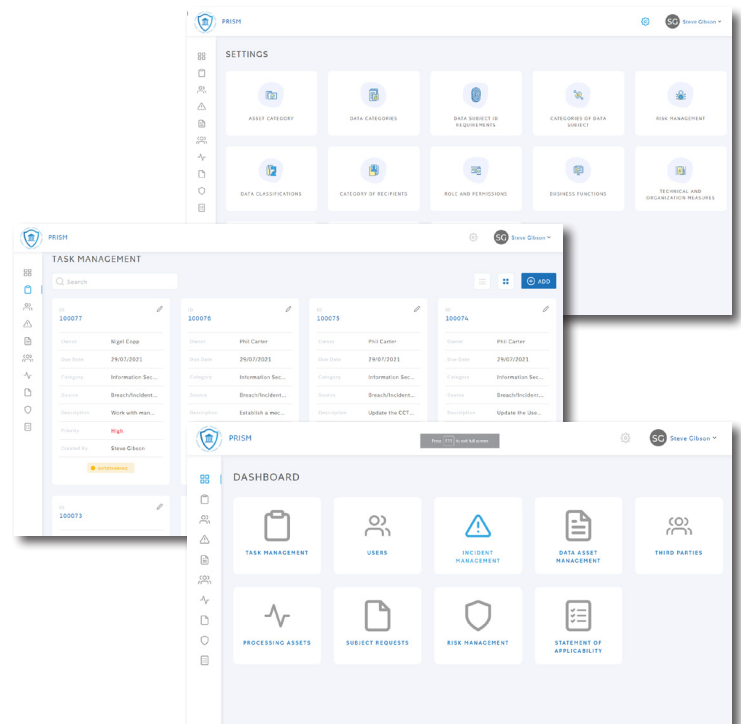

PRISM is the ideal platform to enable service providers and data consultants to directly integrate with your data governance framework; helping you achieve your compliance requirements.

PRISM is for you, if:

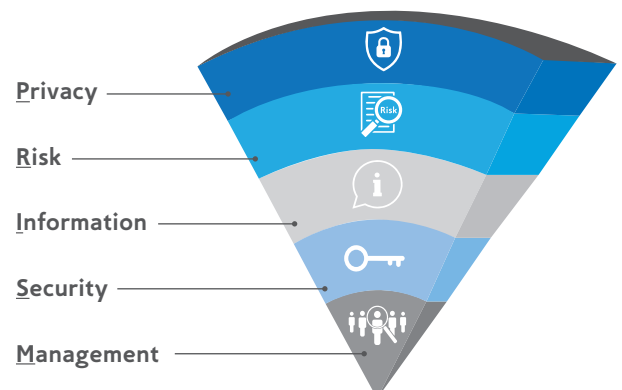

- ✓ You are seeking a simple, yet powerful centralised solution to help with data governance and compliance
- ✓ You want to implement a data governance framework but are unsure how to start
- ✓ You need an integrated platform to manage all of your data compliance activities

It will enable you to:

- ✓ Save time meeting your obligations through a clear, self-guided process
- ✓ Demonstrate compliance cost effectively without complicated, expensive systems
- ✓ Easily manage and demonstrate compliance to multiple data governance and compliance standards across your business

PRISM

A compliance pathway

PRISM is a comprehensive governance platform that specialises in Data Protection and Information Security.

Manage your Cyber Essentials, Data Protection and Information Security governance and compliance all in one place. This tool enables organisations to start with the Cyber Security associated with internet facing devices (Cyber Essentials) and progress to wider ranging Information Security for the entire business (ISO27001), which can then ultimately lead to Data Protection Compliance in line with GDPR (ISO27701).

It's intuitive and self-guided, empowering you to drive progress and demonstrate compliance.

As a process tool, PRISM has full task management functionality at its core, enabling you to delegate and manage tasks more easily.

The system is built by specialist in these areas and comes with access to quality advice and information from industry experts.

Achieve compliance confidently and enjoy the benefits:

- ✓ **Save Time**
Meet obligations faster through a clear, self-guided process
- ✓ **Improve System Management**
Install an easy to use, centralised solution
- ✓ **Auditor Friendly**
Clear and easy access to your compliance information where and when you need it
- ✓ **Expert Support**
Access quality advice from industry experts
- ✓ **Cost Effective**
Achieve compliance without having to use complicated more expensive solutions
